

# Refrigerated Transport (+2 / +8°C)

For those customers that are using refrigerated transport (active cold), we have developed a new product line specifically designed to endure possible Cold Chain breaks.

Those solutions are designed and qualified under the same requirements than our standard insulated kits, so our customers can be sure about the performance and quality offered to their shipments at refrigerated transport.

Insulated Kits - Refrigerated Transport

Reference	Useful Vol (L)	Useful Dimesions (mm)	Ext Vol (L)	Weight (KG)	Pre-qualification (Hours)
					Client Profile
174-3136	1,3	200 x 95 x 70	9	1	36
016-3136	2,3	198 x 138 x 83	12	2	36
263-3130	4,9	303 x 153 x 106	21	3	30 to 110
264-3130	8,6	320 x 183 x 147	29	3	30 to 110
265-3130	15,1	320 x 320 x 147	44	5	30 to 110
266-3130	29,4	467x 323 x 195	71	7	30 to 110
314-6196P	1199	1240 x 840 x 1151	2853	210	> 216
313-6196P	1484	1240 x 1040 x 1151	3350	236	> 216
