

# Reusable Insulated Kits

Shipping systems which allow to reuse the packaging for reverse logistic.

Ideal for transport of highly sensitive products to impacts, temperature and humidity. Interior coated with washable material of high resistance.

Designed according to the dimensions of our Gelpacks, optimizing the 100% of the inner capacity, getting less external volume and weight, and consequently lower cost of transport.

## Pre-qualification (Hours)

+2 / +8°C

+15 / +25°C
